

PrinterLogic SaaS for MSPs

Powerful tools to boost your MSP practice

Enterprise Software for SMB

- Enterprise solution that can manage 5 - 50,000 printers
- Centralised printer and driver management
- Self-service Installation Portal
- Pull and Mobile printing modules

Additional Services and Revenue

- Add print management as a service or as a new stream of revenue
- Advanced features regardless of customer size
- Competitive pricing as your customer base grows
- Increase your efficiency and profitability by solving print-related issues

Process Automation and Analytics

- View licence consumption collectively or by individual customer
- Real-time insight into customer usage
- Assign costs to each print job
- Generate reports automatically based on print count, colour vs b&w, duplex vs simplex

Multi-tenant Customer Management

- Manage direct IP-printing from a single pane of glass
- Tree view gives you access to all customers
- Intuitive interface-no complicated software to learn

Monthly Billing

- Competitive pricing that aligns with the growth of your customer base
- One-year contract with opportunities to re-sign at lower price points
- Built-in financing for your service contract

Cloud Hosted Infrastructure

- No costly infrastructure to install
- Printing stays local - no heavy WAN traffic
- Eliminate reliance on print servers
- Automatic software updates

Automatic Software Updates

- Speed up deployment of new printers
- Faster, efficient driver updates
- Printer agnostic: simple management no matter how complex the printing environment

Technical and Marketing Support

- Extensive training for selling and managing PrinterLogic SaaS
- Technical resource library, videos, and more
- Partner portal with trainings, co-branded collateral, asset library, email campaigns, etc.
